

## **Transglobal Express encourages heavyweight shipments to USA & Far East in the run up to Christmas**

- Special rates for TG Express Worldwide available until 31<sup>st</sup> December 2012

**Bromborough, 11<sup>th</sup> September 2012:** From now on customers will be able to take advantage of Transglobal Express' new heavyweight rates, which are amongst the most competitive available.

“By utilising the surplus capacities of one of the world's largest courier companies, we are now able to offer our customers special rates for heavyweight shipments to USA and the Far East. These special rates are available with immediate effect and will run until Christmas”, said Lawson Archer, Managing Director of Transglobal Express.

As one of the leading independent courier & freight providers in the UK, Transglobal Express aims at offering quick, safe and cost-efficient services. TG Express Worldwide comprises all of these benefits. On-forwarding and final delivery is completed by one of the world's leading carriers known for its outstanding service quality and reliability.

During the booking process, customers will be given the opportunity to book a collection from their UK address or organise their own delivery to a Transglobal Express receiving point.

As with all of our services, TG Express Worldwide has been fully integrated with the user account area, from where customers can access their labels and track their shipments. This promotional offer is expected to run until 31<sup>st</sup> December 2012. Bookings for can be made at [www.transglobal.org.uk](http://www.transglobal.org.uk).

**- End -**

### Company Profile

Transglobal Express is one of the UK's leading international courier and freight forwarding providers. Since its incorporation in 1993, Transglobal Express has gained an excellent reputation for its high quality air freight, sea freight and worldwide courier services.

In 2005, Transglobal Express moved its premises from Birkenhead to a purpose built office and warehouse facility based in the Wirral International Business Park, enabling the company to centrally control and manage its International Courier, Air Freight and Sea Freight shipping services.
